

Collaborative Intranet

One Organization. One Medium.

The Nixel Collaborative Intranet can bind your organization through a single universal medium, accessible anywhere, anytime or as assigned.

The product can be set up on a local or web enabled server quickly and easily, matching your organization's pace of growth and change.

Once this medium is established, a number of workflow and organizational modules can be introduced to rapidly knit together the workforce and enhance productivity, team communications, project management and executive reporting.

The Nixel Collaborative Intranet provides

- News & Events
- Employee Information
- Shared Knowledge

The solution can be used on a local network or a web driven global medium.

One Medium

- Common browser enabled secure access to all authorized users.
- Administrative control over users & usage statistics.
- Customizable layout & persona.

News & Events

- News, Thoughts, Spotlight
- Birthday, Anniversary & Special Event Announcements
- Press Reports, Management & HR Notifications

Employee Information

- Company Directory
- Policies & Procedures
- Quality & Operations Documents
- Holidays

Shared Knowledge

- Shared content repository
- Automated editorial workflow
- Advanced search & filters
- Hierarchical classification
- Multiple format content

The Nixel Advantage

Nixel has a team of experienced business experts with wide ranging functional expertise who can help manage the change process.

The development team at Nixel can be extended to customize and build specific applications that can be then integrated with the intranet in the months after deployment, enabling a smooth and continuous migration into an integrated digital medium.

The Nixel methodology and expertise will ensure your project rolls out on time and with all the quality parameters you set out with in the beginning.

The product provides you with a head start in implementation and the critical user comfort level that is so important for successful organizational acceptance, cultural change and technology adoption.
