

Building the digital enterprise

The Nixel Technology Partnership

Nixel Technology has since 1991 been delivering strategy & solutions to customers and enabling them to leverage technology and information for higher levels of productivity, quality, coordination and integration, leading to competitive advantage.

Nixel has worked across over a hundred business and functional areas and with enterprises small, medium, large and globally spread. Our understanding of business processes, our continuous research initiatives, technology expertise and appreciation of the change process enable better program management.

Quality on Time

Quality on Time is a unique methodology created to help us deliver and deploy sophisticated software within demanding schedules. A structured process that runs through a project life-cycle, the Nixel methodology assures quality and performance consistently.

World Class Solutions

Nixel has a range of world class solutions for business process automation and integration, relationship and knowledge management. These products are built with state-of-the-art technology, incorporate best practices and enable implementation in weeks, helping you stay ahead all the time.

A great team to work with

The Nixel team is researching and innovating all the time, staying abreast of global developments and ensuring sophisticated tools and methods are used in the design and development of our solutions.

24 x 7 x 52

Nixel is never out of range. Multiple contact points enable us to deliver information, software and services needed to use our solutions better and enhance your organizational productivity, quality and competitive advantage.
